THE
MILESTONE
OF 1931

ACKNOWLEDGMENTS

TO DEAN L. B. R. BRIGGS, of Harvard College, who has contributed an article on the founding and the endurance of the Academy.

TO CHRISTOPHER MORLEY, who has written an essay on milestones.

TO OGDEN NASH, who has given a typical poem.

TO FRANK O. KING, who has drawn one of his inimitable cartoons.

TO LISPENARD PHISTER, who has secured the transcript of Lieutenant Governor Dummer's will.

TO HAROLD JOHNSON of the Andover Press, who has shown a sincere willingness to cooperate.

TO JOHN J. HESSIAN and JAMES W. HARRIS, who have given the materials from which this book is made.

EDITOR'S FOREWORD

The primary aim of this year's annual board has been to perpetuate the scenes of school life in the pages of the MILESTONE.

In so far as our resources have permitted, we have included campus views, action pictures of athletic teams, and documents pertaining to the history of the school.

Thus we hope that in future years, these familiar scenes and historical transcripts will recall pleasant memories of GOVERNOR DUMMER ACADEMY.

To

MR. EDWARD W. EAMES

this volume of the MILESTONE is dedicated as a token of our appreciation for his sincere devotion to our individual problems in this his first year at GOVERNOR DUMMER ACADEMY.

And to

MRS. EDWARD W. EAMES

whose graciousness at the Mansion in receiving our parents and friends has added immeasurably to the courteous and homelike atmosphere of the school.

A Message from Dean Briggs of Harvard

A bequest of William Dummer, Ex-Lieutenant Governor of Massachusetts, who died in 1761, is the origin of Dummer Academy, now known as Governor Dummer Academy. This school, established in 1763, may fairly be regarded as the oldest academy in the United States; for, though called at first not an academy but a "grammar school," it began work earlier than Phillips Exeter and Phillips Andover.

Its relation to our oldest university is intimate and singular: intimate through the eminent men who have been connected with both Dummer Academy and Harvard College; singular in the testator's provision that nothing but sickness, advanced years and inability, or "a profligate wicked life" shall cause the removal of the Master, and that, before removal "he shall be adjudged and sentenced by a Majority of the overseers of Harvard College to be displaced."

High schools and endowed preparatory schools have driven many of the old academies to the wall. Among those that have withstood the shock is Governor Dummer Academy. Weakened for a time, it is now reinvigorated, and has taken its place among the schools that parents and benefactors will do well not to overlook. Governor Dummer Academy, if I may judge from all that I hear of it, is rapidly and deservedly coming to its own again.

L. B. Briggs

Cambridge, May 7, 1931

In the Name of God Amen. William
 Dummer of Boston in the County of Suffolk in
 New England Esq^r being by Gods goodness of sound
 & disposing mind & memory, do therefore make
 & ordain this my last Will & Testament in man-
 ner & form following, that is to say, first I Comm-
 end my soul into the hands of Almighty God,
 who gave it, my Body I Commit to the Earth to
 be decently buried at y^e discretion of my Executors
 hereafter named, hoping for y^e free pardon of all
 my Numberless sins, & for a Resurrection to Ever-
 lasting life only thro' the Merits & intercession of
 my Blessed Lord & saviour Jesus Christ, the Eter-
 nal son of God. Touching the Disposition of all
 my Temporal Estate I give & dispose thereof as
 follows. Imprimis I will that all my Debts and
 funeral Charges shall be paid & discharged by my
 said Executors, out of such part of my Estate where-
 in all my Mortgages are included, whe then the
 same be forfeited or not. Item I Give Devise and
 Bequeath unto the Rev^d M^r Thomas Foxcroft
 & the Rev^d D^r Charles Chauncy ministers of the
 first Church in Boston aforesaid, & M^r Nathaniel
 Dummer of Newbury in the County of Essex
 my Dwelling house & farm & all my Real Estate
 lying & being in Newbury, to be to them & their
 heirs & the survivor or survivors of them, & the
 heirs of such survivor forever, but upon this spe-
 cial use & trust Viz^t, that the whole of y^e Rents
 Issues, & profits thereof, shall in the first place
 be appropriated laid out, & expended in the Erec-
 ting building & finishing a Grammar School
 house, to be erected on the most convenient part
 of my s^d Farm, according to y^e Appointment
 of the then ministers of the parish of Byfield so
 Called

Called in Newbury aforesaid, & five of y^e principal
 inhabitants free holders of s^d Parish that shall
 be elected at y^e annual Meeting of said precinct
 for that purpose; & after y^e s^d school house is built
 as aforesaid, that then y^e s^d annual Rents issues &
 profits shall forever be appropriated & set apart
 towards the maintenance of a Grammar School
 Master in said School according to the directions &
 appointment of y^e Minister of s^d Parish of By-
 field, & his Successors forever, together with y^e direction
 & appointment of five of y^e principal Inhabitants
 Free holders of s^d Parish to be chosen for y^e purpose
 aforesaid at their annual meeting in each year, or
 the Major part of them so Chosen as aforesaid, & to
 for no other use Trust or purpose whatsoever
 & when so chosen & appointed in manner as aforesaid,
 to be & remain Master of said School without any
 Removal, unless thro^o sickness, advanced Years and
 inability, or by a profligate wicked Life, he shall be
 adjudg^d & sentenced by a majority of the overseers of
 Harvard Colledge to be displaced; & then & in such
 cases only, it shall be lawful for y^e s^d Minister & the
 Inhabitants chosen as aforesaid, to Nominate &
 appoint another person to be school master to s^d
 school to all intents & purposes as if y^e former was
 naturally dead. And it is my will that no Scholar
 be admitted into said School but such as can read
 English well. and in case this my Charitable Do-
 = nation should by Evil minded persons be frus-
 = trated & made void, or otherwise be determin^d,
 then, & in such case, & not otherwise my will and
 pleasure is, that the aforesaid Messuage Land &
 premises go to, & be for the only use of my own
 Right heirs forever, & to & for no other use or pur-
 = pose whatsoever. Item I Give, Devise & Bequeath
 unto my Son Lewis & Neices (my Nephew Jeremiah
 Powell

The Highlands November 17th 1930

My dear Mr. Eames:

Your letter of Nov. 1st gives me the opportunity
and pleasure of expressing my appreciation of the good
work you have done and are doing for the old school.

The courtesies I have received from your staff
and the always gentlemanly deportment of the pupils
have been very pleasing.

There is good reason for my interest, for four genera-
tions from this house have been pupils, and of my
blood and name there have been two Masters and two
Trustees, with seventy-five enrolled pupils.

Also, for several years previous to 1760 the college
preparatory school which through his generosity became
the Governor Dummer School was held in the room
adjoining that in which I write.

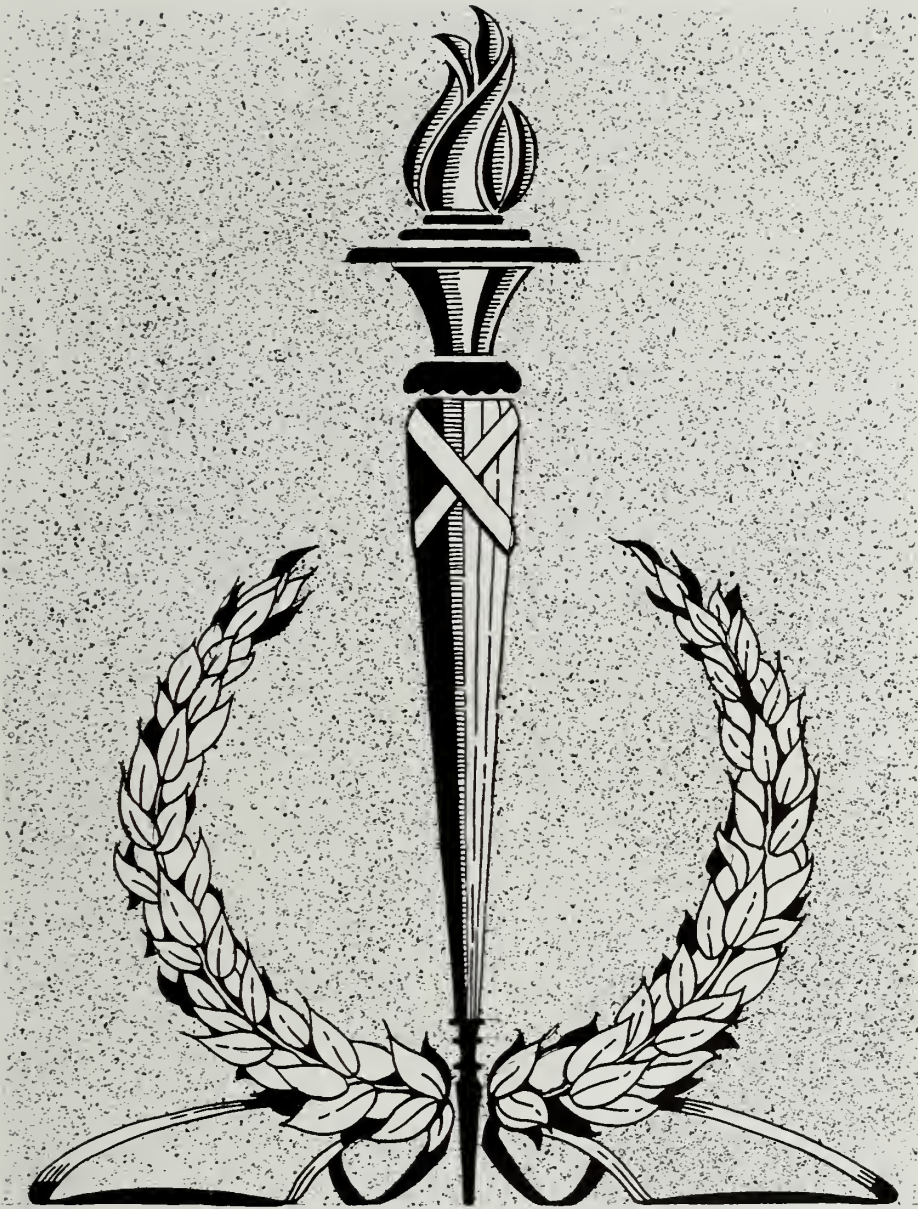

For the three previous to 1760 we have no list of the
pupils, but probably Joshua Noyes Jr. was the teacher
then, as later. The Trustees in 1760 were Richard
Dummer (the Governor's cousin), my ancestor Capt. Samuel
Adams, and Rev. Moses Parsons, and there were 20 pupils.

It is our family tradition that Richard Dummer
impressed it upon his cousin that Adams' "farther bed-
room" was not fitted for so large and prosperous school.
Up to 1859 when some changes were made in the house
some of the crude school room fittings were still stored in
the attic and the desk used by Master Noyes is still preserved.

I am greatly pleased by the suggested term of
Governor Dummer Academy and you have my sincere
good wishes for continued prosperity.

Yours very truly
George W. Adams

Milestone 1931

A milestone is always an exciting thing, and it looks two ways. Your particular milestone is especially interesting because the figures on one side of it are much larger than on the other. The number of miles behind you, at this bend in the road, are not many, but the stone is a comfortable place to sit, in warm spring sunshine, and look back for a moment. In those amusing miles behind you will have had a chance to learn one very important reality, the first really unselfish love that comes into a man's life: the love of an institution. Particularly if it is an old foundation with a long history, a man loves the school where he studied. He loves it not just for his own memory of times good or difficult; he loves it with a larger piety. He loves it for what it may be able to give other boys in the future. This is his first experience of that generous devotion that men have to institutions, that love and loyalty to schools, colleges, hospitals, factories, newspaper offices, all the places where the work of men is being honorably done. It is often characteristic of men that they love institutions better than they love themselves. This is the central instinct of civilized men. If you have had an opportunity to love intimately an institution that has life, tradition, and a feeling of permanence, you have had a rich privilege.

The look in the other direction, toward the future, is less easy perhaps. It needs more stomach. The future holds more fun and more surprise and more hard work than you ever imagined possible, but it also holds that thing that frightens human beings more than anything else—uncertainty. I've been greatly interested lately in reading about the extraordinary effort being made by one nation, which has suffered many calamities, to plan and foreordain its future. I mean what the Russian Republic calls its Five-Year Plan; by which, in five years of organized effort, they propose to transform the economic life of a whole nation. Whether their plan can succeed, or whether the theories on which it is based are agreeable to our notions, is irrelevant. It is a gigantic human effort, and it has suggested to me that in this spring of 1931 many of us might make the experiment of laying out a Five-Year Plan for ourselves as individuals. How can we map out our hopes and energies so that in the next five years we can be more useful and serviceable—to ourselves and to others? Our Plan will fail, of course, in many details; but it would be something even to have thought about it. For it is certainly true that the things we most genuinely want and plan for can be made actual.

I hope this doesn't sound like preaching, for indeed I don't feel that way. But since you were friendly enough to ask for suggestions, my notion is that you and I might (quite secretly) draw up a Five-Year Plan for ourselves. Each of us will keep it dark, but at the end of five years we can check up on it and see what has happened. You can drop me a line in 1936 and tell me what those five milestones looked like. Good luck!

Your friend

The Football Season

The 1930 Football Team was the most successful that we have had in recent years. It completed its season with the commendable record of five victories, two ties, and one defeat. Captain Churchill, whose sportsmanship and all-round play were big factors in the success of our team, was the mainstay at fullback. With him in the backfield were Walker, a very capable field general, and Collins and Segler, both strong on the offense and defense. The line, although light, was very aggressive. Cunningham excelled at center, and Denel and Young cooperated at guard positions. Davis and Langmaid played exceedingly well as tackles, as did also Carter and Latimer as ends. Chase, Graf, Underhill, and Wood were dependable substitutes.

The season opened October 3d with Roxbury Latin. The Governors scored in the opening minutes of play and again in the closing period of the game. A combination pass, Walker to Churchill, tied the score, 13-13. This game was instructive for us, and the following week we defeated Woodbury High School, 49-0, in a one-sided contest, thus discovering our reserve strength.

In the next game we emerged victorious over Newton Country Day, 39-0. The visitors were completely overwhelmed by a low fast-charging line. Denel, Segler, and Cunningham were largely instrumental in our success.

Our next game resulted in a victory at the expense of the Harvard Freshman Reserves. The teams were even at the half, but our superior condition proved fatal to the Freshmen. After the all-round play of Carter and Latimer, and the hard and smashing tackling of Graf, the game ended, 20-0.

The game with the Andover Reserves saw our team at its best. The feature play was a seventy-five yard run by Walker through the entire Andover eleven.

On November 11th the Governors met the strong Sanborn team in the Haverhill Stadium. Both teams played hard football. At the end of the first half we were behind, 6-0. In the third quarter, however, after the Governors had staged a sixty-two yard march, Captain Churchill went over for a touchdown. Collins was the outstanding back in this game, and Cunningham made his best showing of the season at center.

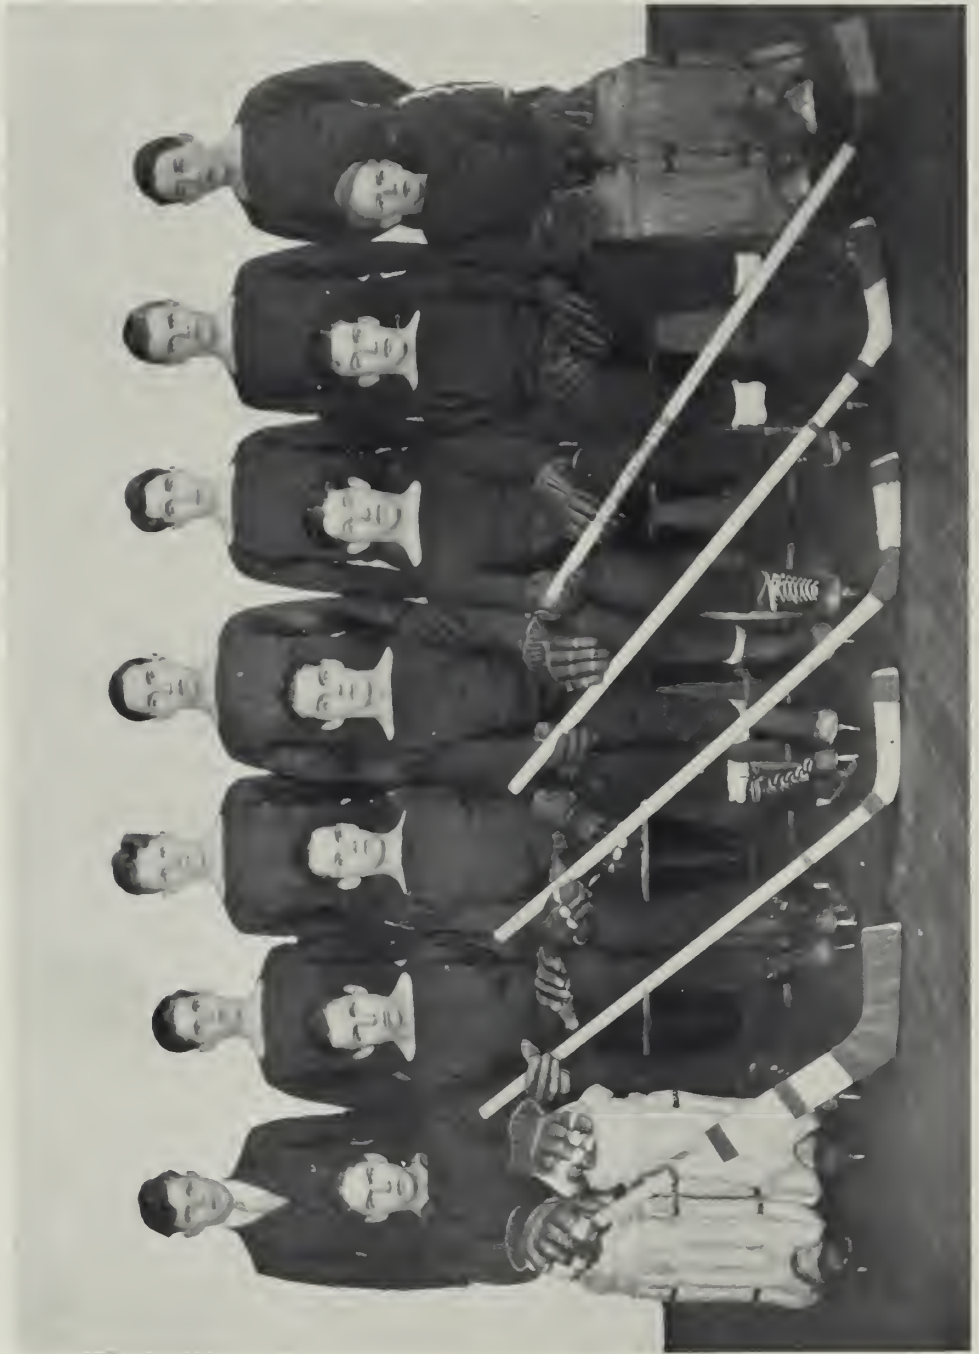

In the final home game the Governors defeated Essex Agricultural School, 9-0. Langmaid and Davis played particularly well.

Governor Dummer Academy played Deerfield in football on November 24th, for the first time in the history of the two institutions. This game proved to be the most thrilling of the season. Deerfield scored twice in the first three quarters as the result of effective passing. In the fourth period we scored on a line plunge by Churchill. Then, with Collins and Walker playing great ball, we marched eighty-three yards, only to lose the ball within the one-yard line. Deerfield kicked from behind their own goal, and the game ended in their favor, 13-7.

Much credit is due Mr. Jacob, Mr. Hearn, and Mr. Sager, for their valuable coaching was largely responsible for our enviable record.

The Hockey Season

During the 1931 hockey season Governor Dummer was well represented on the ice by a team which skated to five victories in eight starts.

Of last year's squad of ten players only two returned, and neither one was a letterman. However, of the sixty new boys enrolled last fall seven or eight had had hockey experience. This gave a happier outlook for the season of 1931. To add to this the hockey pond was enlarged during the past summer, and a new concrete dam was put in. Mr. Eames called the hockey candidates for informal practices during the brief period between Thanksgiving and Christmas vacations. Fortunately the squad was able to get on the ice three or four times to get used to skates again. After Christmas hard practice began. A first string line-up was organized, composed of J. Smith, goalie, Langmaid and Adden, defense, Chase and Eldred, wings, Walker, center.

The season opened with a home game against Hampton Academy on January 14th. The opposition was weak; consequently the coaches had a chance to use many players and size them up. Although the team showed up well, several rough edges were revealed. During the following practices a second string line-up was developed with Hosmer in the goal, Buechner and Davis at defense, Wolff and Farr on the wings, and Barndollar at center.

The second game was played at home against Amesbury High School on January 17th. Bad ice and careless playing brought us a day of hard luck. Amesbury went home victorious, 3-1.

Worcester North High School came to South Byfield on January 24th and was trimmed, 2-0. The Governors were clicking like a clock despite the fact that Captain Joe Langmaid was so injured in the second minute of play as to prevent his return to the game.

The first Brooks School game was played at South Byfield on January 29th. Due to light opposition the opportunity was taken to give the third stringers some experience under fire. In this game the team felt the effects of good poke and sweep checking. Several ragged edges were removed and the team was thoroughly groomed for the two games that followed.

On January 31st eight players were taken to Marion to play Tabor Academy. The Governors were slow in getting into action. Both teams were playing cautious and defensive hockey. Our advances against Tabor's goal were quickly checked. Towards the end of the second period the game began to speed up. The third period opened with Tabor leading, 2-0. We went into that period determined to win. Four of our men were sent down the ice risking everything for a score. Tabor reached our defensive zone less than half a dozen times. Each time they were thwarted by John

Adden, who played a Hitchman game at defense. Finally the sweeping attacks of Langmaid, Chase, Walker, and Eldred produced results. The first three scored successively in that order, all within sixty-six seconds. It was the most sensational rally that the team made all season.

The following Wednesday, February 4th, we invaded Andover, but were repulsed 3-2 after the Governors had put up a hard fight. The team played the steadiest hockey of the season in spite of the fact that the whole second forward line was incapacitated. The coaches had to use the two second string defensemen for relief work on the wings. We led at the end of the first period. The score was tied at the second. Shortly after the opening of the third period Walker took the puck on our blue line and skated through the whole Andover team, circled their goal, and poked the puck in around the post. It was one of the finest exhibitions of a solo dash shown by any member of the team. Near the end of the period Andover tied the score again. After six minutes of overtime play Andover whipped the rubber past Jack Hosmer, who had batted aside many a labeled shot that afternoon.

On February 7th the return game with Brooks School was played at North Andover. We were minus the services of our two goalies and our two centers. Brooks took the game, 4-2. The playing was ragged and uninspired. Wolff took the honors for the Governors by scoring both goals.

The postponed game with Haverhill High School was played at South Byfield on February 9th. Both teams were ragged. The game was a poor exhibition of hockey. There was a lot of roughing and quite a few penalties were handed out. However, we came out on top, 3-1.

Five more games were scheduled, but warm weather ruined the ice, causing their cancellations. We were scheduled to meet Lawrence Academy at Groton on February 12th, Belmont Hill School on February 14th, Wakefield High School at home on February 18th, Deerfield Academy at home on February 21st, and Portsmouth High School at home on February 25th. At a meeting on February 21st, the team gave up hope of finishing its schedule and disbanded.

This team was a successful aggregation. In spite of all the bad breaks, the team hung up a good record. The Governors could play a steady game, and their ability to work in unison brought them through the pinches on several occasions. Captain Langmaid was a fine defenseman, the best the school has ever had. He was equally as good at the forward position. He was also a very capable leader. The team was behind him all the time. Walker holds the same high position among our centers. He played brilliantly all season and was the team's high scorer. Our two regular goalies made a good record. They allowed the puck to pass them but nine times in seven games, a record beaten only by Sam Eaton, goalie for the teams of 1929 and 1930. Chase played a hard steady game on the wing. His checking back broke up many attacks that would have been fatal to our cause. Eldred, on the wing, was a good skater and a good stickhandler, but he did not have the endurance of his mates nor the weight; consequently he took quite a lot of bumping. Adden played

ragged hockey the first two or three games, but during the last half of the season he was stopping everything that came his way. Davis and Buechner, second defense, were the most reliable spares. On several occasions they performed a forward's duties as well as their defensive jobs. Wolff, though an unsteady player, was of great value as a relief forward. He was a clever stickhandler and by his shooting boosted the score several times. There were many other substitutes, but all were handicapped in one way or another, chiefly by inexperience, which the coaches gave them every opportunity of overcoming. The whole team wishes to take this opportunity of thanking Mr. Eames and Captain Smith for the time and effort they gave to making this a successful team.

At the meeting March 12th, Mr. Eames gave hockey letters to the following: Captain Joseph Langmaid, Captain-elect Elwood Chase, Howard Walker, Calvin Eldred, John Adden, James Smith, Karl Wolff, Carl Buechner, and William Davis. It is expected that all but Langmaid, Adden, Buechner, and Davis will return next year. This will leave the defense position open. Captain Smith has been grooming Bill Gove for the position. Who Bill's mate will be is an unanswered question at present. However, we all wish Mr. Eames and Captain-elect Chase the best of luck for the season of 1932.

The Basketball Season

Considering the fine schedule that the basketball team had this year, the season was unusually successful; only two out of three games were lost and those by very close scores. Mr. Reagan and Mr. Hearn are to be congratulated for the efficient way in which they coached the team. Captain Collins broke a bone in his foot shortly after the sixth game, but his fine example of courage and sportsmanship sustained the squad throughout the entire season.

Navins, at right forward, was a fine shot and a hard worker, and played exceptionally well after the loss of Collins threw upon him the added responsibility in the offense. Captain Collins, left forward, was the outstanding player both in floor-work and in shooting. Cunningham, who changed from guard to forward, was a very accurate passer and a good floor man. At center Cushman did good work in getting the tap-off consistently, and his all-round playing gradually improved. Graf, at running guard, was exceedingly fast and shifty, and was in addition a good defense man. After Cunningham was moved to forward, Deuel played guard and improved steadily. Henneberry proved to be a very capable substitute and in no small way was responsible for many victories.

The season opened with an easy victory over the Haverhill Continuation School by the score of 57-20. This game showed the strength of our team in all departments. In the second game, due to the fine shooting of Collins, we defeated the strong Massachusetts Nautical School, 37-33. The Governors suffered their first defeat in the following game at the hands of the fast Wakefield Y.M.C.A. five. This was an exceedingly fast and exciting game, and it appeared as though either team would win until the closing seconds of play, during which Wakefield scored twice, ending the game in a two-point lead for them. In the next game the Governors returned to the winning column by defeating the Rindge Technical School. The game with Peabody High proved easy for us. In the closely contested match with Lawrence Academy we won, 34-30. In this game Cushman played exceptionally well for us.

The team was handicapped with Collins out of the line-up in the Cambridge Latin game, but the fine shooting of Henneberry and the all-round playing of Cunningham helped to win the game. We next defeated the Salem Normal School, 50-18. In the following game, at Milton, we met our second defeat, where the team, handicapped by a large and unfamiliar floor, lost a hard-fought contest, 24-27.

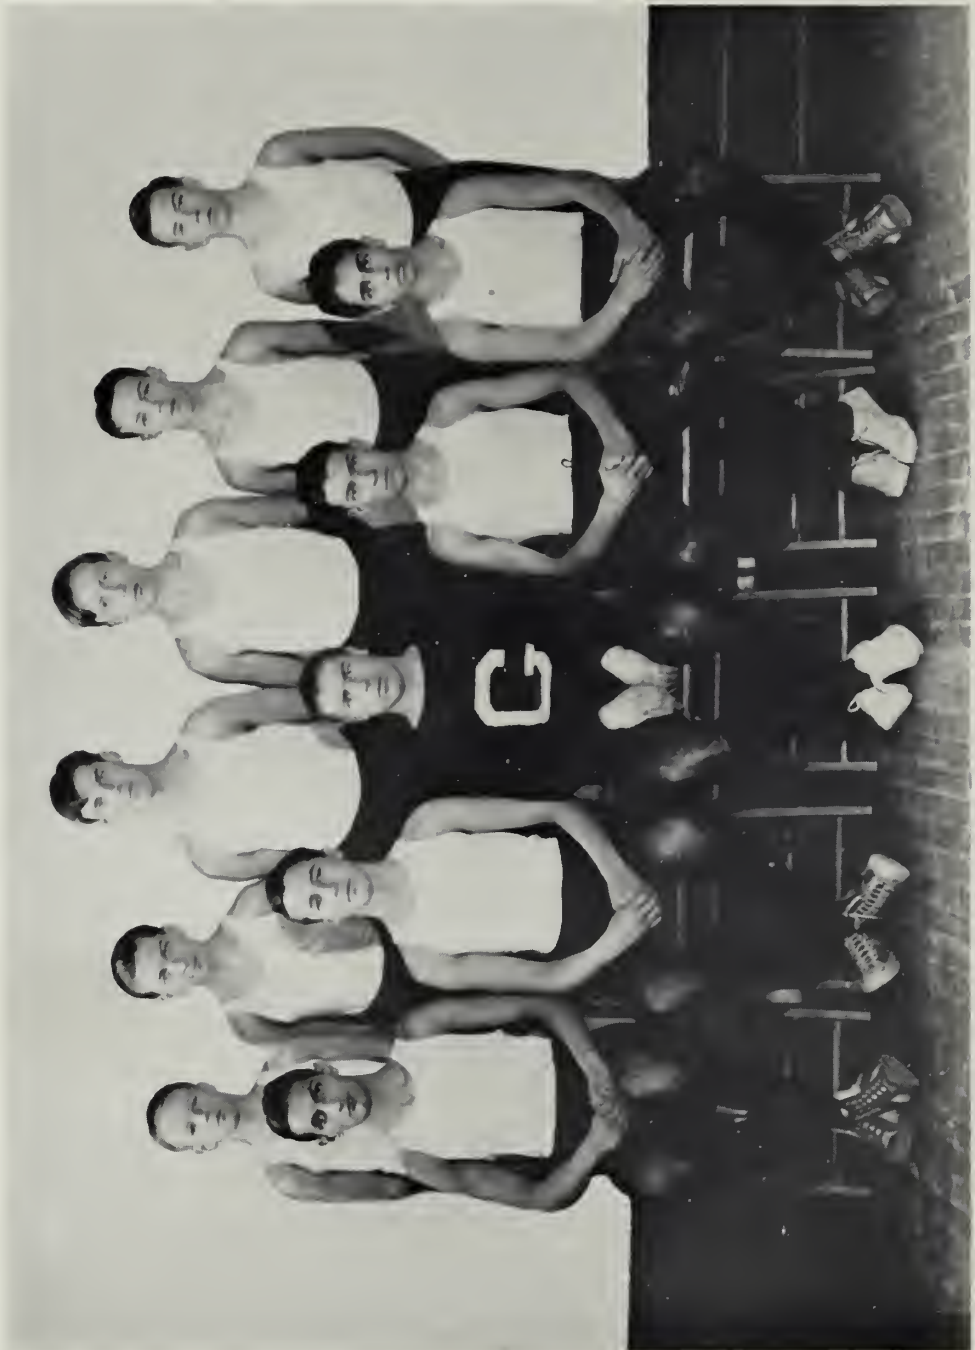

In the return game with Lawrence Academy we were victorious by ten points, and in the following game we completely overwhelmed Rockport High, 54-24. In this game Deuel made his best showing of the season.

In what was expected to be one of the hardest games of the year, the Governors defeated Essex Agricultural School. This was a very fast game and was decided in our favor only by our superior condition and the very fine work of Graf and Navins. In the final game, that with the Rivers School, we were furnished little opposition, and won easily by the rather one-sided score of 55-8.

Added to individual brilliancy and cooperation of the players as a whole, this Basketball Team of 1931 has left an exemplary spirit of fine sportsmanship.

The Wrestling Season

Wrestling is a new activity at Governor Dummer Academy this year. Of the twelve boys out, only one had had any former experience. Considering the many handicaps that the squad has worked under during its first year, the accomplishments of the team have been highly satisfactory.

Under the able coaching of Mr. Brodhead, and the fine example set by Captain John Yonug, the squad exhibited unusual interest and perseverance. There was most marked improvement, both in the team as a whole and in the members individually; and the prospects are that a strong team will be developed providing the sport is continued for another year.

From the point of view of score alone, the season has been unsuccessful. In the first meet with Milton Academy the Governors were defeated by a score of 19-5. George Laite, in the 125-pound class, was the only man able to gain a fall for us. Wrestling is an established sport at Milton. Consequently it is not surprising that its squad was easily victorious over our comparatively inexperienced team.

The first home match was with Browne and Nichols. Although we lost by the score of 26-5, the school was well pleased with the spirit shown by both teams. Sanders saved the day for the Governors by throwing his opponent twice in a hard-fought and spectacular match.

In the next meet our matmen were defeated 21-8 by the Andover Seconds. This time Fearnside and Staples scored points for us.

On February 28th the Governors lost to the Newburyport Y.M.C.A., 13-9. Morrill deserves much credit for his showing in this match, for he gained a time decision over a much more powerful opponent. Otto Thelen also put up an exceptional bout in this meet, and although he lost by a time decision, his courage in resisting a half-nelson for seven minutes was the outstanding feature of the match.

The final meet was a return match with Browne and Nichols. Although the score stood 21-8 against us, we feel that this match was a most gratifying contest against a much heavier and more experienced opponent. Fearnside, the most aggressive wrestler on our team, won a time decision over Smith in what proved to be the feature bout of the meet, and Sanders with comparative ease threw his opponent.

It is hoped that wrestling will assume a more important position in the winter sports program of succeeding years. From the standpoint of individual improvement of the wrestlers and of enthusiasm in the sport, the wrestling squad had a most commendable season, marred only by one unavoidable accident. A few days after our second meet Captain Young suffered a broken collar-bone. John was our most outstanding wrestler, and his loss was a severe blow to the team.

The squad is especially appreciative to Mr. Brodhead. It was his patient perseverance in training that was responsible for the great improvement in our men.

SHAW CARTER, *Third*

HAYWARD BROWN, *Second*

LAWRENCE CHURCHILL, *Lead-Off*

RICHARD SEGLER, *Alternate*

HARVEY KELLY, *Manager*

SCHEDULE

			<i>Won by</i>	<i>Time</i>
February	28	Bridgton Academy at Lewiston	Bridgton	2:41
March	4	St. John's Preparatory School at Andover	Governors	2:25
March	14	Bridgton Academy at Bowdoin	Governors	2:13

The Relay Season

Handicapped by lack of a cage and the resulting necessity of outdoor practice in the winter months, the Relay Team has overcome all obstacles and gained for itself tremendous credit by the record it has made.

In January the team had its first chance for a real work-out when it went to Boston College. Jack Ryder gave the fellows some very valuable track information, and the team had an opportunity to become used to a track and to the required distance. Time trials were made by each man.

On February 11th the team, then composed of McVeigh, Brown, Carter, and Bates ran against a picked team from Phillips Academy at Andover in their cage. The Governors lost to a better team by about three yards. Later in the month the team again visited Andover; this time the runners were Larry Churchill, Brown, Carter, and Bates, who ran in the order named. Against a somewhat stronger Andover team they won with a margin of about five yards.

The first Relay Meet in which the team participated was held at Bates College, February 28th. Russell Chapman, representing the Bates Varsity Club, entertained the team very courteously on Friday evening preceding the race. The Governors competed with Bridgton Academy, holder of the relay championship of Maine for six years. Larry Churchill, as lead-off man, took the lead on the first bend, although Bridgton had the pole, and Brown took the baton with a two-yard lead, which he held. Shaw Carter ran a beautiful race against Borden, Bridgton's fastest man, and was passed only in the last few yards. Bates failed to overtake his man, and we lost by a narrow margin.

On March 4th the team again competed at Andover against a yet stronger Andover team and St. John's Preparatory School. Andover was quickly eliminated, and we found ourselves up against a strong team in St. John's. Larry Churchill took the lead and finished about three yards ahead; Hayward Brown lost this and three more to a man faster than he; Shaw Carter held his man to this; Bob Bates ran a beautiful race passing his man on the last bend and winning for us by a foot. The time of 2:25 was within a second of the cage scholastic record.

The final meet of the winter schedule was at the Interscholastic Relay Games at Bowdoin College, March 14th, and we again ran against Bridgton Academy. This was a complete victory for the Governors in that each man won his race and built up a growing lead until Bridgton trailed at the finish by twenty-five yards. The time of 2:13 was the third best at the meet.

The team is deeply appreciative of the help and encouragement Mr. Sager gave them. To the two boys who did not make the team, Fred McVeigh and Harry Churchill, a great deal of credit should go for the competition they gave the regulars. It was unfortunate that Dick Segler, our alternate, on account of illness was unable to run in a single meet.

The Baseball Season

The 1931 Baseball team had a very interesting season. The game with Andover on May 27th, proved that it has also been a successful one. Since the mid-season batting slump, during which we lost four successive games, the team has steadily worked back to its original pace. The Governors, led by Captain Navins, have displayed some remarkably fine fielding ability. The infield consisting of Navins at third, Walker at short, Collins at second, Cushman at first, and Young as catcher, is perhaps the best fielding combination that Governor Dummer Academy has ever had. The outfield consisting of Latimer, Henneberry, Deuel, and Cunningham has done some very excellent playing. Due to the smallsquad Cunningham, Deuel, and Henneberry alternated in the box. The pitching of Cunningham has been a big inspiration to the team.

The season opened on April 15th with a 9-6 victory over Groton, and the following Saturday we won from Andover, 9-8, in a very exciting game. The hitting of Walker and the relief pitching of Cunningham were features of the Andover game.

On the heels of these two wins followed four successive defeats. The Governors lost to Thayer by the score of 10-0. Hughes of Thayer pitched very effectively, fanning 15 of our men. In the game with Milton we were defeated, 9-2, and the following Wednesday on our own diamond, we lost a well played game to Lawrence Academy by the score of 2-1. On May 2nd we were defeated by Roxbury Latin by the same score.

This losing streak was broken on May 6th by a 13-1 victory over Brooks School. The hitting of our boys was decidedly encouraging in this contest. After winning this game, we were again given two defeats. On May 9th we lost a very well played game to Belmont Hill, 3-2. The hitting of Deuel and Walker was the feature.

Perhaps the best game to watch from the standpoint of fielding and pitching was the game with Coburn Classical Institute. This game lasted thirteen innings, and we finally lost, 4-3. Cunningham pitched a remarkable game for us, while the fielding of Navins, Walker, Collins, and Young stood out. Foster played well for the visitors.

On May 15th the team journeyed to Western Massachusetts, where it played Amherst Freshmen and Deerfield Academy. In the Amherst game the score was tied 2-2 until the tenth inning, when Cunningham, after pitching fine ball, won his own game with a clean single over second base. Latimer and Henneberry fielded exceptionally well for us. The Deerfield game ended in a 1-1 tie and proved to be an exciting one. Both teams were playing a very superior brand of baseball when rain in the sixth stopped the game. Navins played brilliantly at third base, and Deuel and Henneberry furnished excellent support in the outfield.

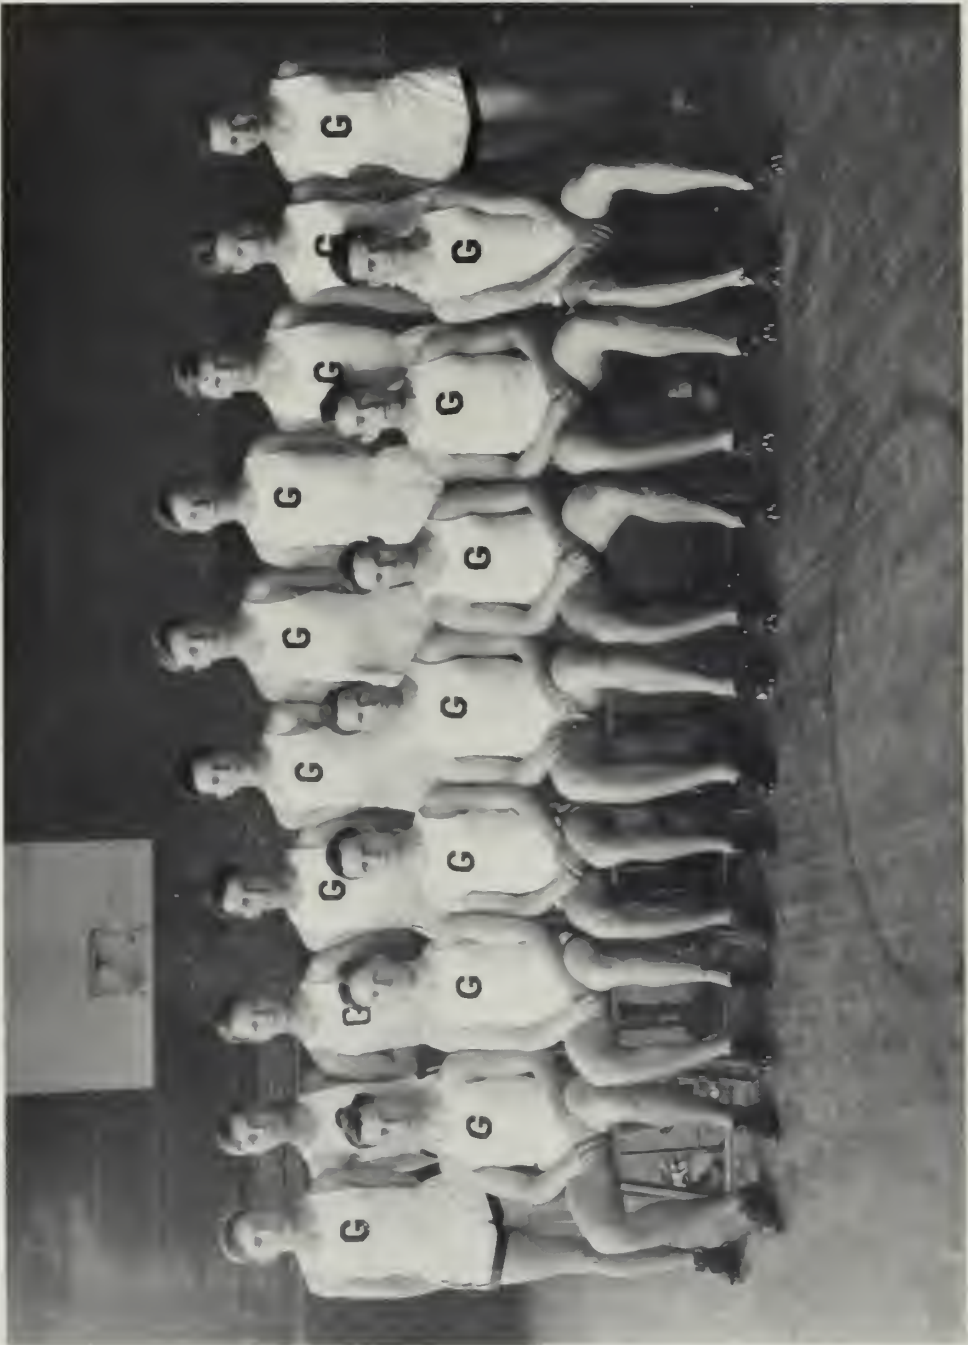

With many good games yet to be played, and with the improvement the team has shown recently, we may expect an interesting and successful part of the season yet to come. While many of the regular players will not return next year, we feel that Mr. Eames and Mr. Hearn will find much material with which to work on the present second squad, coached by Mr. Barry. We should like to mention the efforts which the coaches have devoted to the development of the team as being integral factors in what success we have had.

May	16	Bridgton Academy at Brunswick—Bridgton 67 Governors 59
May	30	Amherst Interscholastics at Amherst

The Track Season

When the 1931 track season opened, there were no veterans of last year to form a nucleus for the team. Nevertheless, under the excellent supervision of the coaches, Mr. Brodhead and Mr. Jacob, the season thus far has been very successful. Among those who turned out for track, Bates in the half mile; Brown in the dashes; Carter in the discus, shot put, and javelin; L. Churchill, the best allround man of the team, in the dashes, shot put, and discus; and Segler in the quarter and javelin, were the outstanding performers. Other men of good ability included, Graf, McVeigh, Ingersoll, Soule, Wood, Clapp, Sanders, H. Churchill, Shepard, Bond, and C. Beuchner. This group showed a fine cooperative spirit.

On May 2nd, the squad was divided into two teams, captained by Bates and Segler, and a regular meet was held for the purpose of giving the candidates practice in competition. The most interesting race was that between Bates and McVeigh in the half mile; after running close for most of the way, Bates finally won in the excellent time of 2:15. The coaches were also pleased with Brown's time in the hundred, and with Graf's showing in the broad jump.

The team entered the New Hampshire State Interscholastic meet on May 9th, and placed third, losing only to Bridgton, the state champions, and Hebron Academy. Larry Churchill was the outstanding man of the day, placing second in the 100, which was won in ten flat. He also placed fourth in the shot put and won the 220-yard dash in 22 3-5 seconds. Bates and McVeigh in the 880 and Brown in the 220, did very well for us.

In a dual meet between Bridgton and Governor Dummer, we lost by 8 points. Bates placed in the 220 and 880, the latter of which was won by Clapp. L. Churchill was the high scorer of the meet with 23 points. Segler and Graf placed second and third in the 440, and Carter placed in the high jump and low hurdles.

The team has yet to meet the Andover Seconds, and to compete in the Amherst Interscholastics.

The Golf Team

JOHN C. CUSHMAN, Jr.
CALVIN ELDRED
WILLIAM HENNEBERRY

CHESTER INGRAHAM, Jr.
JOSEPH LANGMAID

SCHEDULE

			<i>Opponents</i>	<i>Governors</i>
April	30	St. John's Preparatory School	5	2
May	7	Beacon School	3½	5½
May	21	Beacon School at Wellesley	7	2

The Golf Season

The Golf Team had a rather mediocre season, winning one match and losing two. However, considering that not one member of last year's team returned, and that there were very few days in which to practice, the team, which consisted of Henneberry, Cushman, Ingraham, Langmaid, Eldred, and Chase, did very well.

In the fall the school conducted a tournament. This was run on a handicap basis so that every boy would have an equal chance to win. Cushman, playing with the lowest handicap, was awarded the prize. Another handicap tournament is being held this spring, but has not as yet been finished. Henneberry has the lowest handicap in this, a 6, and Cushman is next with a 10.

The first match was with St. John's Prep on April 30th. Cushman and Ingraham were the only men to win, but the others all lost close matches. The final score was 5-2.

The second match of the season was with the Beacon School of Wellesley. This was a very close match, the Governors finally winning on the last hole. Henneberry barely defeated his man one up, and Cushman, Eldred, and Chase also won their matches. The score was $5\frac{1}{2}$ - $3\frac{1}{2}$.

In the last match of the season the Governors lost a return engagement with Beacon School, 7-2. Chase and Eldred won the only points for the team, but the matches were much closer than the score would indicate.

On account of the fact that both the number one and number two men were playing on the baseball team also, and because the latter is a major sport, it was felt to be unwise to push golf as a competitive activity to the same extent as in past years.

The Tennis Team

MARIO FERNANDEZ
JOHN HOSMER

PENN PILLSBURY
HOWARD ROSENFELD

REINHARD THELEN

Coach
MR. OSBORN P. NASH, II

Manager
CECIL KLEEB

SCHEDULE

		<i>Opponents</i>	<i>Governors</i>
May 9	Wakefield High School	3	2
May 16	Wassookeag School	5	0

The Tennis Season

Although this year's tennis team has lost both matches played to this date, the prospects for a fairly successful season are yet good.

Veterans from last year include Fernandez, Pillsbury, and R. Thelen. New players of equal experience are Hosmer and Rosenfeld. The squad has practiced under adverse conditions, and a great deal of time was spent during the early part of the season in putting the courts in shape. Despite this fact, however, the team has made a remarkable showing against very strong opposition.

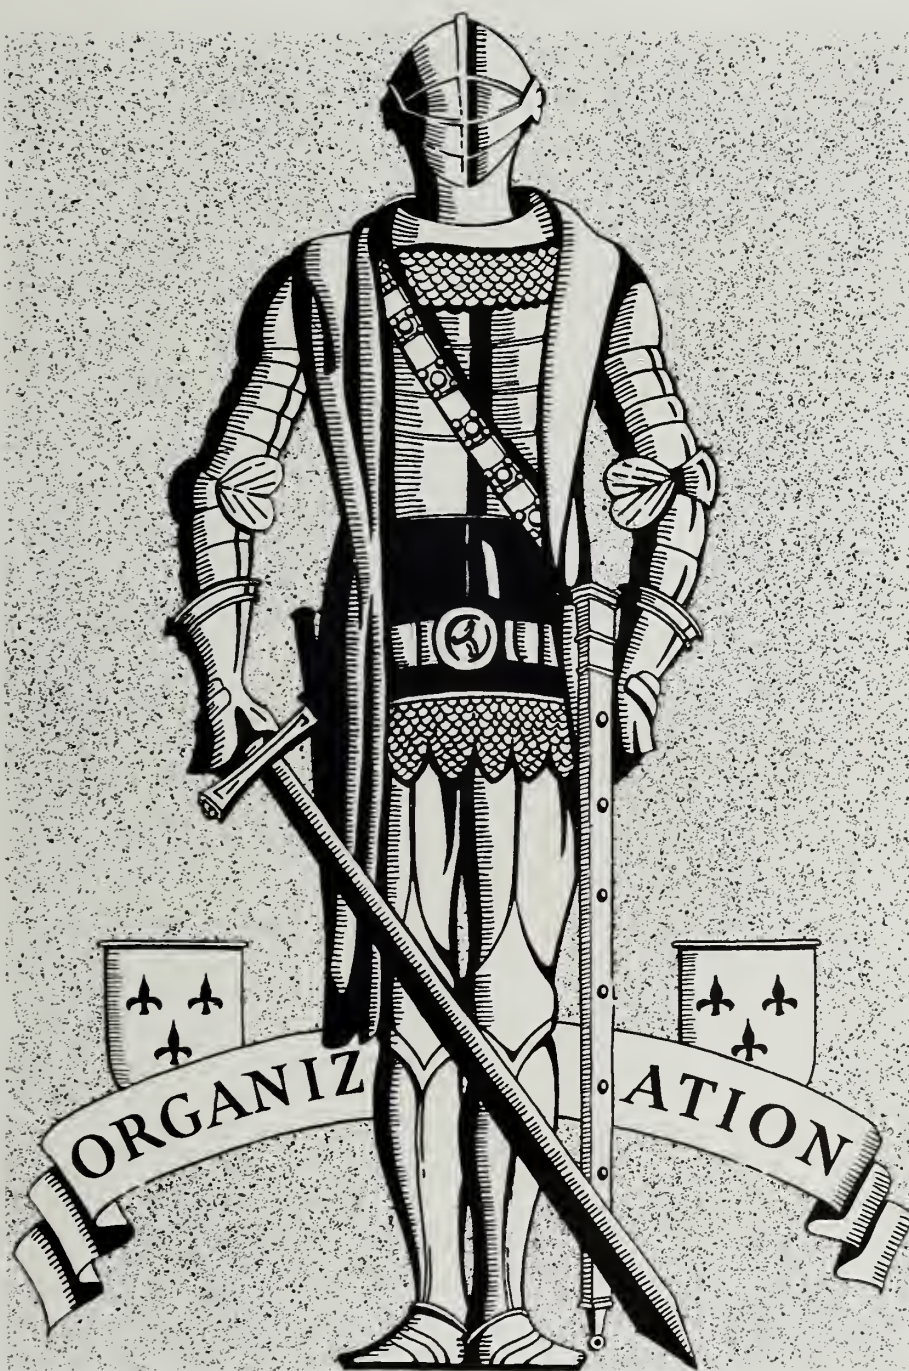

Hosmer and Pillsbury have been alternating at number one position. The former has good experience to back up his determination and all-round playing. The latter, a good driver and an experienced man, should win a majority of his matches. Rosenfeld, playing number three, is a well seasoned player, whose control of the ball makes of him a formidable opponent. Fernandez is of a very shifty type, and playing number four position, he has shown a good knowledge of the game, and has developed into a steady player.

The first match, that with Wakefield High School, resulted in a defeat for our team by the score of 3-2. After hard and fast matches Pillsbury and Hosmer lost in both singles and doubles, but Rosenfeld won his match, and in the doubles he and Fernandez cooperated in fine shape to win the second point for our team.

On May 16th Governor Dimmer was defeated decisively by Wassookeag, 5-0. Hosmer, number one man in this match, put up a very stubborn fight against Jackson, an experienced player. Rosenfeld forced his opponent to three sets before being defeated.

With the courts in good condition and the opportunities for practice more favorable, it is to be expected that the 1931 Tennis Team will be successful in its later matches. Mr. Murphy has been tireless in his coaching and is in a large measure responsible for the very real improvement which the team has shown.

The Student Council

JOSEPH LANGMAID, *Chairman*

CARL A. BUECHNER, JR.

PHILIP P. COLLINS
JOHN E. CUNNINGHAM

JOHN C. CUSHMAN, JR.
J. EDWARD HESSIAN
J. HARRIS LATIMER
THOMAS N. WILLINS, JR.

H. JOHN YOUNG

The Student Council

The fall of the year nineteen-thirty marks the first term in which the Student Council has held a prominent place in the activities of Governor Dummer Academy. This organization is looked upon as the most important undergraduate committee in the School. The duty of the Council is to consult with the Headmaster and faculty on different subjects pertaining to the well-being of the undergraduate body.

Ten members make up the enrollment of the Council for the current year. From these ten members, the four elected to represent their respective halls are the following:

Lawrence Whitfield Churchill Jr., *Pierce Hall*; John Edward Hessian, *The Commons*; Thomas Nelson Willins, Jr., *Perkins Hall*; H. John Young, *Moody House*.

The four elected from the student body at large were: Carl August Buechner, Jr., John Edward Cunningham, John Clydesdale Cushman, Jr., Joseph Langmaid.

James Harris Latimer, as President of the Senior Class, was voted an honorary position on the Council. Philip Paul Collins was elected to represent the day students.

One of the arguments taking place in the Council meetings was the question as to whether the school insignia should be changed from the old "D" to a "G", representing "Governor Dummer" or "Governor". After consulting the Alumni and the student body, it was voted by a large majority of the Council to make the change in question. Because of this decision the nineteen-thirty football team was the first to receive major "G's" in place of the previous insignia. At this time it was also voted on matters pertaining to the wearing of athletic sweaters and letters.

Shortly after, the Student Council waged a campaign for the benefit of the Red Cross. Joseph Langmaid, Chairman of the Council, announced that a complete enrollment of the school was received.

The Student Council is the governing influence of the student body. It makes the choices of letters and selects the players of different sports who deserve the privilege of wearing the school insignia. In the event of two major sports, the Student Council determines which is the more important and in consequence awards larger letters to the players of that team. In numerous social activities of the school, Student Councillors are called upon to be present and to take part in entertaining guests.

At the beginning of the school year, Sunday breakfast was compulsory. However, the Council, feeling that many students would like to sleep over, effected a change which allows the boys to sleep instead of going to breakfast. The Council also arranged for a breakfast to be served in the school store.

The Student Council this year was essentially an experiment, but it has been such a successful one, and has made of itself such an integral part in the school life that it very truly deserves the permanency which it doubtless may anticipate.

MR. ARTHUR W. SAGER

The Glee Club

When school began in September, we not only started out with many new members in the student body and in the faculty, but also with some new activities which were to have the distinction of being first instituted under the new regime. One of these was the Governor Dummer Academy Glee Club. The foundations on which it began were slim and weak, but with the enthusiastic instruction and friendship which Mr. Sager displayed, it soon reached a state from which there was no question as to its permanence.

In the first place it was not a required activity, merely one of voluntary participation, and those fellows who came out did so on their own wish. At first it was planned to have only a double quartette, but the enthusiasm was so great that the present club of twenty-five members was soon organized. It was some time, of course, before any selections could be produced with real quality, for the members were somewhat lacking in experience. Two or three nights a week and occasionally on week-ends the Club met with Mr. Sager and Mrs. Jacob, our accompanist.

On the evening of December 18th, at the annual Football Banquet, the club rendered its first two selections. These were "Cotton Dolly" and "Swing Low, Sweet Chariot." All the audience apparently enjoyed them tremendously, which fact gave the fellows a keen incentive to work harder.

After the Christmas vacation the club began in earnest the work of preparing for a concert which was to be given under the auspices of the ladies of the faculty on March 6th, in the Lang Gymnasium. Proceeds from this were to be sent to the members of Byfield Parish to aid in the fund being raised for the new church. People from the surrounding neighborhood, other friends of the school, and parents were invited to attend. The gym was filled with people who not only enjoyed the concert of the musical clubs but also admired the attractive decorations put up for the dance on the following night.

On Friday night, May 1st, the Glee Club traveled to the Central Congregational Church in Newburyport where, with the Orchestra, it presented a charity concert for the benefit of the Parish. The selections rendered there were "Old Man Noah," "Cotton Dolly," "Old Uncle Moon," "Plantation Lullabye," "The Bells of Saint Mary's," and "The Big Brown Bear." Members and friends of the Parish were delighted not only with the program but also with the spirit of friendliness which the club showed in offering its services.

On June 12th, Commencement Day, the final joint concert by the Clubs will be given. At this time the program will consist of selections on which the Clubs have been working all winter in order that parents may obtain a definite impression as to the ability of the organization.

The Orchestra

Since October the Orchestra, under the leadership of Mr. Arthur Sager, has risen steadily to its present high standard. Its season reaches a peak this term with a concert at the Central Congregational Church in Newburyport and with selections to be offered at the Commencement exercises. Much credit is due Mrs. Jacob and Mrs. Smith for their cooperation and assistance, which we greatly appreciate.

Starting early in the season, the boys practiced regularly, and many who had not been playing their instruments for a year or more were prevailed upon to join the small group, thereby increasing the volume and lending necessary support. After sufficient drilling, the Orchestra made its first appearance at the Thanksgiving Dinner on the evening of November the twenty-fifth. This debut was extremely successful, and Mr. Sager and the boys were heartily cheered.

Shortly after this, the organization made its second appearance, Sunday noon, December the seventh. Here it was evident that all the members were making a decidedly earnest effort. At the Football Banquet the group was welcomed for the third time; it helped to entertain the guests at dinner and added much to the success of the occasion.

After Christmas it took up more difficult selections and spent much time working on them. Consequently it was invited to perform at a play presented by the Women's Guild of the Central Congregational Church in Newburyport. There it was welcomed with much applause. Several individuals congratulated Mr. Sager on the excellent work produced by such an inexperienced group.

One of the best showings made yet was that at the Musical Clubs Concert, March the sixth. The boys were more or less keyed up to this event, since they had been preparing for it for several weeks. The audience responded to the several selections with an ever increasing enthusiasm though some thought the organization was not at its best.

One May 22nd the Clubs gave a concert in Rowley for the benefit of the Congregational Church. One of the most interesting events of the year was the broadcast May 28th from Station WCSH, Portland, Maine. After the concert the annual Musical Clubs Banquet was held at the Eastland Hotel.

Both the individual members and the Orchestra as a unit have made marked improvement since last fall. Mr. Sager deserves much credit for the effort and time he has patiently spent in making of this newly organized group a really creditable orchestra. Next year his task will not be so difficult, for many of the present members will return, and with this group as a nucleus he will have an opportunity to do more advanced work.

The Archon

The first *Archon* was published eighteen years ago, and those connected with the paper look back with considerable satisfaction and pride on the long period through which it has formed a definite and integral part of the school life. During those years *The Archon* has sometimes appeared as a small newspaper and sometimes as a news magazine. This year's board has reverted to the magazine form, and the paper now appears as a sixteen-page booklet, eight by ten and one-half inches in size. The cover, featuring the well-known portrait of Lieutenant Governor William Dummer which hangs in the Mansion House, has been standardized as a means of familiarizing the public with the significance and the full form of the name of the Academy.

The contents, as always, have consisted largely of concise accounts of the events of the school year. We have been fortunate, however, in securing several feature articles to supplement the news stories. Among them have been three editorials by the Headmaster, a summary of the football season by Mr. William B. Jacob, the head coach, and an appreciation of the late Mr. Fred M. Ambrose contributed by his fellow trustee, the Honorable Alden P. White.

Our circulation has amounted to better than five hundred copies per issue. About two hundred of this total represents paid subscriptions from the students and their parents, alumni, and friends of the school; another hundred copies have been distributed to our advertisers and to our exchange list. The remaining copies have been furnished to the school at cost, to be mailed to parents of prospective students and to other interested people. We feel that these copies represent a real contribution on the part of *The Archon* and are proud of the implied approval of our efforts.

The management of the paper has been marked this year by strict adherence to the principle of selling advertising only to those who might reasonably expect to win the trade of the boys or of visiting parents, and by the acquisition of an addressograph which has greatly decreased the labor of mailing, and for which we acknowledge with thanks our indebtedness to Mr. Oliver Audette of *The Herald Press*, through whose interest we were enabled to secure a very satisfactory machine at no cost beyond that of the plates. Our increased circulation has made it possible to secure a mailing permit with the privilege of mailing at a pound rate without stamps, and *The Archon* is now delivered to its subscribers in an attractive envelope which protects it from soiling in the mails.

The staff of *The Archon* desire to express their gratitude to the student body for the loyal support which has made our success possible, and to Mr. Edgar D. Dunning, who has filled the post of Faculty Adviser, and by his innovations and his efficiency has given *The Archon* new standards.

The Outing Club

Probably the most recent organization to be started at Governor Dummer Academy is its Outing Club, which was begun during the winter term. Beginning as a group of Winter Sport enthusiasts, it soon developed higher ambitions and was established as a club not only for those interested in skiing and tobogganing, but also for boys having a liking for hikes and outdoor life in general.

After the election of officers, the more active work was begun. Three parties scoured the woods until a fine site for a cabin was located. Work was immediately begun upon a trail to the place, and upon completion the members turned their activity towards the clearing of the location. One group began the erection of a bridge over a swampy inlet while the rest started working on the foundation of the cabin. Due to the shortness of the season, the work did not reach a very advanced stage. However, it is reasonable to believe that much greater progress will be shown next season.

During the limited times in which the snow was suitable for skiing and tobogganing, time was taken from the construction in order to allow the winter sportsmen to indulge in these activities. Small ski-jumps and toboggan slides were erected on the hills of the golf course, and a number of skiers and tobogganists turned out to take advantage of them.

It is hoped that next season will be even more enjoyable. Attempts are being made to arrange trips into various parts of Massachusetts and New Hampshire, which will enable members to do some mountain climbing and not a little hiking. It is also possible that improvements may be made to facilitate skiing and tobogganing.

The newly elected executive board has already had one meeting for the purpose of choosing suitable insignia to be worn as a badge or charm. It is very probable that the final selection will be made before summer. There is also a possibility that some sort of emblem will be designed to be worn on sweaters by deserving members.

A great deal of credit must be given to Edward Hessian, the first president, for his skillful and enthusiastic leadership. Without the example set by him, the club would never have gotten as far as it has. His active interest and his energetic participation in the work brought about the most hearty cooperation of the other members.

The club began under the supervision of Mr. Frothingham, but as he was forced to leave because of illness, Mr. Murphy stepped into his place. Both members of the faculty will be long remembered by the club for their whole-hearted interest in the organization.

Others especially deserving of mention are Howard Rosenfeld, treasurer, and Peter Whittlesey, secretary, for their efficient work both in their special duties and in the work of the entire club. Ernst Krippendorf, Dix Robbins, and Colin F. Soule, as captains of construction squads, did much in helping the development of the organization.

The Fall Prom

The first dance of the year was held on December 13th in the Lang Gymnasium. The Gymnasium was very attractively decorated, and the Harvard High Hatters, a seven piece orchestra, provided the very excellent music.

There were a number of guests from Newburyport, Byfield, and other neighboring towns, as well as the members of the faculty and their wives. Several of the guests were accommodated overnight in Perkins Hall under the chaperonage of Mrs. Osborn P. Nash, II.

The dancing commenced at four o'clock in the afternoon and continued until six o'clock. Dinner was served at six-fifteen in the school dining room to the guests and the students. The evening dance commenced at quarter of eight and lasted until eleven-fifteen, when light refreshments were served by a caterer from Newburyport.

Thus the first dance of the school year came to a very successful conclusion, both financially and otherwise. John C. Cushman, Jr. and his committee composed of Gilmore Farr, Edward Hessian, Harris Latimer, Joseph Langmaid, and Otto Thelen deserve a great deal of praise for their sincere efforts to make a success of the dance.

PERPETUATION

Where poppies grow,
There is a glow
Of beauty here and there:
Where roses fade
There is a shade
Of Autumn everywhere.

Wasted years and bitter tears
Mingled with untimely fears,
Take from us that glow begun:
And in the shade of bygone days
We see our goal within a haze—
Our life's work left undone.

And so within these pages,
To last throughout the ages,
We'll place fond memories of these, our student days;
And though the pages fade,
They'll always cast a shade
Of love, and toil, and fun in many ways.

H. JOHN YOUNG

The Winter Prom

As social functions are an integral part of school life and add to it a pleasing diversion from the academic routine, it is planned to have a dance each term. On March 7th the Winter Prom, the dance for the second term, was held in the Lang Gymnasium under the direction of Lawrence Churchill and a committee composed of Shaw Carter, Harris Latimer, Jacob Bond, Edward Hessian, James Smith, Ernst Krippendorf, and Hayward Brown. Through the ceaseless efforts of this indefatigable group, an affair was planned, executed, and enjoyed all in the short space of six hours.

The guests who were to participate in the entertainment arrived in South Byfield about three o'clock via the school and personal cars. They were to be entertained in the Mansion and the Moody House where they were first escorted and introduced to the hosts and hostesses, Mr. and Mrs. Eames and Mr. and Mrs. Dunning.

Dancing started in the late afternoon with music furnished by five members of Roy Lamson's Harvardians, who play during the summer months at the Megansette Tea Room on the Cape. The gym was attractively decorated in harmonizing shades of green and white; streamers being extended from the walls up to two centers, dividing the hall in halves.

The chaperons were Mr. and Mrs. Phillips, of Boston, and Mr. and Mrs. Eames. Members of the faculty with their wives or friends and many of the friends of the school were present through invitation of the committee in charge. At six o'clock all adjourned to dress for dinner, which was to be served in the dining hall at seven. After dinner, guests were invited both to the Mansion and to Moody House for coffee. The formal evening dancing began at eight and continued until midnight, at which time refreshments were served.

The funds received above expenses were sent to the committee on Unemployment of Byfield.

BIOGRAPHICAL REFLECTION

I was a student
Who couldn't
See any more difference between nouns
and verbs
Than there is between Croats and Serbs
With a result
I was always getting expult.

ADVERTISEMENTS

GOVERNOR DUMMER ACADEMY

Founded in in 1763 through a
bequest of William Dummer,
Lieutenant Governor of
Massachusetts Bay Colony.

SOUTH BYFIELD : MASSACHUSETTS

For men who are known by their foresight quick thinking and courage

. . . For such men, a reliable panorama of trends is indispensable. Insight is the mother of foresight, and only the business leader who sees clearly today's conditions that affect him is equipped to lead.

The new World's Work presents stimulating clear-cut action articles . . . reported fresh from today's industrial shops and offices, scientific laboratories and political chambers, . . . and written in a fascinating informal style.

World's Work is tailor-made for the key executive . . . on the premise that all industry is economically interlocked.

Its over-night success among business heads attests its value to them. It is a magazine which executives refuse to think of in terms of dollars and cents.

One dollar pinned to a letterhead showing your name and title will bring a six months trial subscription . . . enough to decide upon its value to you upon solid ground.

WORLD'S WORK

Doubleday, Doran & Co. : Garden City, New York

\$1.00 a year!

The AMERICAN HOME is the most practical and genuinely useful homemaking magazine to be found at any price . . . yet it costs just \$1.00 a year, or 3 years for \$2.00 (less than 6 cents a month!) Covering every phase of homemaking, indoors and out, with America's most famous architects, decorators, gardeners and home management experts contributing to its pages, it is a magazine you cannot afford to be without!

The
AMERICAN HOME

H. G. WELLS

JULIAN HUXLEY and G. P. WELLS

have completed the great companion work
to the famous **OUTLINE OF HISTORY**
THE SCIENCE OF LIFE

Of all the thrilling non-fiction narratives ever written, few, if any, equal this distinguished, informative pulsating *story of all living things*. For centuries the world's most brilliant scientists, historians and philosophers have struggled for more and more knowledge. And now, their great discoveries on the enchanted story of Life are vividly unfolded for you—as only the fire and scintillance of Wells can unfold them—in unforgettable chapters, solving, in a way *all* will enjoy and understand, the riddles of this whole romantic story that has puzzled *most* of the world's people.

From life in its lowest form, you are led breathlessly on through the ages. By the light of Science, you see in one colorful parade, **LIFE**—in the water, on land, in the air. You are brought the entire record of the great march of events that produced insects, fish, reptiles, flowers, fowl, mountains, forests, beasts, mammals, the races of mankind—**WE AS WE ARE!**

THE STORY OF ALL THINGS LIVING--IN

4 epoch-making
volumes

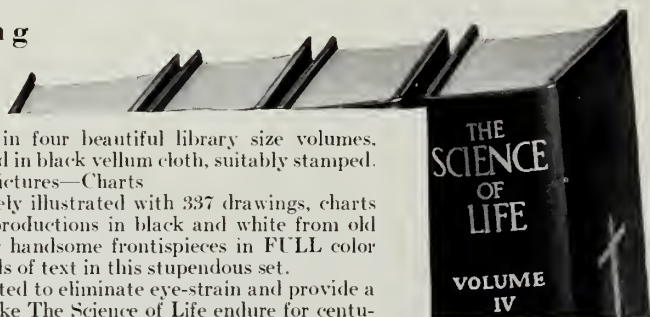

The Science of Life is published in four beautiful library size volumes, 6 $\frac{1}{2}$ " x 9 $\frac{1}{2}$ ". They are durably bound in black vellum cloth, suitably stamped.

Words—Pictures—Charts

There are 1548 pages in all, profusely illustrated with 337 drawings, charts and diagrams. 64 photographic reproductions in black and white from old and new original sources, and four handsome frontispieces in **FULL** color amplify the more than 600,000 words of text in this stupendous set.

The paper and type have been selected to eliminate eye-strain and provide a beautiful type page that should make The Science of Life endure for centuries. The price of the set is \$12.00.

Doubleday, Doran & Co., Inc., Dept. S.B.W., Garden City, N. Y.

DOUBLEDAY'S ENCYCLOPEDIA

DOUBLEDAY'S has been called a "New Kind of Encyclopedia" because it approaches the world's knowledge in a new way. Its purpose is to make knowledge NEWS—as fascinating as the news presented in your daily paper. The best description of its style might be Anatole France's remark, "Only by amusing oneself can one learn. In order that knowledge be properly digested, it must be swallowed with good appetite."

To make this new work complete as well as fascinating, great specialists were called upon—authorities such as Elihu Root, Herbert Hoover, Helen Keller, Henry Ford, Oliver Lodge, J. Arthur Thomson and John Galsworthy.

Each of these has written on a subject upon which he or she is entitled to speak with special authority. Elihu Root, for example, has written on citizenship and government. Helen Keller has written on the education of the blind, and Henry Ford on education in industry. Sir Oliver Lodge has contributed various articles on psychics and Professor J. Arthur Thomson many articles dealing with biology and the life processes. John Galsworthy has written on civilization.

Many others might be added to the list. Ray Stannard Baker has written on the Versailles Treaty, Robert Russa Moton on the progress of the Negro. Other authorities have contributed articles of importance and interest.

To make each page attractive and each fact clear, the picture collections of the entire world were combed for their photographic treasures.

DOUBLEDAY'S ENCYCLOPEDIA in 10 strikingly illustrated volumes, is the most convenient and useful work of its kind in existence today. You need but to look within its covers to appreciate the simplicity, conciseness and accuracy of its articles, the informative value and interest of its illustrations, and to acquaint yourself with the wide range of its authorities, who have been chosen for their knowledge and their ability to express themselves clearly and to the point.

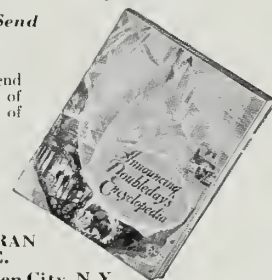

To enable you to get the full import of this entirely new viewpoint in the preparation of an encyclopedia, the publishers would like to send you (of course, without cost or obligation) an interesting booklet of sample pages.

Where Shall We Send Your Copy of This Free Booklet?

The publishers will send you this large booklet of sample pages, many of them in full color. Your name and address will bring this booklet and all the facts by return mail.

**DOUBLEDAY, DORAN
& COMPANY, INC.**
Dept. S.B.W., Garden City, N.Y.

Ten attractive and durably bound volumes containing 10,000 illustrations, most of them halftones made from actual photographs, and full-color plates. 28,000 separate articles, 5,700,000 words, 277 maps. The five-year achievement of America's largest general book publisher—Doubleday, Doran & Company, Inc.
